

Reactiv8 works hard to ensure our programmes receive the best expertise and this has been proven with Michelle Crook winning Tutor of the Year Award.

The Learning Partnership selected Michelle to receive the award as part of Adult Learners' Week, the UK's largest annual festival of learning, inspiring thousands of people each year to discover how learning can change their lives.

This year's award ceremony was held at the University of Bedfordshire and, as with previous year's events, the ceremony was uplifting, well received and extremely important for learners, their tutors and sponsors providing a time for celebration and recognition for individual learners and for projects that have contributed to the learning agenda.

Our congratulations also go to the other worthy winners who received Adult Learning Week Awards.
