

Reactive8 Housing provides a variety of supported housing models to meet varying needs such as short term, medium term and long term accommodation. Working alongside BENCH, HMP Bedford and Bedford Borough Council, our supported accommodation provides accommodation and staff support in order to help people address issues such as:

- A crisis where the person needs help to keep safe and rebuild their life, i.e. escaping domestic violence or harassment.
- Where the person has issues with drugs, alcohol or offending that affects their ability to obtain and/or manage a tenancy.
- The person is an ex-offender on Probation books looking for accommodation.
- The person has been homeless, or never had their own tenancy, and needs support to obtain a tenancy and to help manage it.
